Dear Ms. Backus:

I am writing this letter in regards to the sampling done at the East Lake Landfill, permit number 2802 during the year 2008. Samples were collected only once due to a problem with the wells. Both shallow and deep wells were fitted with a Well Wizard set-up back in 1997. This was to combat turbidity which was aggravated by hand bailing. The plastic tubing, bladder pumps, and controller all needed to be replaced as determined by our chosen contractor. The whole process took about three months and two worthless visits from our sampling contractor.

I hope this adequately explains our situation however if you have any questions please call me Chad Allen 252-216-6898.

Sincerely,

Chad Allen
